"Our underwriters have the experience and the environmental and insurance knowledge that is necessary to create the appropriate combination of coverages for your customer," said Barbara Deas, SVP, ACE Westchester's Environmental Division. "Many of the underwriters have been underwriting environmental risks using the combined forms since at least 2001."

The continued growth in the environmental services industry makes the one-stop service provided by ACE Westchester's Environmental Division even more valuable to brokers and customers and reduces potential coverage gaps or overlaps that may exist when numerous policies attempt to provide similar coverage.

Minimum premiums: begin at \$2,500.
