

# ACE WESTCHESTER

## *Transportation*

*Effective May 1, 2007 ACE Westchester Casualty has expanded its underwriting abilities with the creation of a dedicated unit focused on Transportation Risks. This unit will provide Westchester approved producers with a centralized underwriting facility to assist in the placement of Specialty Trucking and Transportation business. Risks to be considered include transportation of materials and liquids either on a local, intermediate or long-haul basis. There is no restriction on owner operators or fleet size. Public livery i.e. taxi, black car and buses will be considered on a very limited basis.*

*Business will be priced on a strict “unit rating” basis, accounts which are currently loss/experience rated will be considered subject to acceptable “unit rates”.*

*This unit will operate as an excess auto and buffer auto facility. It will not consider “capacity” placements. Umbrella form can be considered on a very limited basis. Distribution will be through Westchester approved wholesale brokers only.*
